This project benefitted the community through the Milwaukie Museum. It provided needed improvements to the museum property that would not otherwise be possible due to a lack of funding.

The project consisted of constructing 7 new Planter Boxes & constructing a new carved Wood Sign for the Museum.

The Planter Boxes were built so they could be installed around the existing galvanized metal liners that contain the planting soil & plants. The new Welcome Sign was built offsite then installed in a concrete foundation replacing the old sign.

Building Flower Boxes & a new Sign

Installing the new Items

After the work was done
